Thurs and/or Friday each week	Late registrations processed in Dribl for the upcoming round. If there is no upcoming round, then late registrations may not be processed until later given time frames above	FSC Office

## PLEASE NOTE

PlayFootball has merged FFA numbers belonging to the same participant. However, the FFA number now belonging to a participant may not match the record in Dribl.

As in 2025, FSC will stop registrations automatically being processed in Dribl.

Clubs are requested **not to approve** any registrations which come across into Dribl.

FSC will check each registrant and endeavour to update records in Dribl before approving.

The reason is to avoid having to merge records in Dribl which will undo some of the other work that your registrars do.
